Dear 

25X1

I fully appreciate the extra "mile" put forth on the recent  report. I'm sure accommodating all the changes without additional resources required considerable "in-house" adjustments. The final product is clear and has high utility potential in future actions. I look forward to the reaction to the report by others in the Community once we complete distribution.

Working with your people was a most satisfactory experience. I'm aware that those involved in the report really extended themselves. Thanks again for your special efforts in "bringing in" the report and ensuring its quality meets both our standards.

Sincerely,

25X1
